### ATTEMPTING TO RAISE NEW ARMY IN DURANGO

Reported By A Captured Mexican That Villa  
Has Recovered From His Wounds And Is  
Endeavoring to Raise Another Army. In A  
Slight Brush Monday U. S. Cavalry Men Kill  
ed Three Villistas. Gen. Scott Believes The  
Situation in Northern Mexico Not So Serious  
and the United States and Carranza Are Co-  
operating To Break Up Brigandage. Fun-  
ston Begins Distribution of Troops. Bandits  
Wrecked Train.

[By Associated Press.]  
Field Headquarters, Mexico, May  
16.—Villa has recovered from his  
wounds and has been busy some  
weeks attempting to raise a new army  
in Durango, according to a story told  
today by a Mexican captured at Ojos  
Azules late in April.  
United States cavalrymen are trail-  
ing small bands of Mexicans near the  
Rubio Ranch, twenty miles away,  
where three Villistas were slain by  
an American detachment yesterday.  
The clothing of one of the slain, in-  
dicated he participated in the Co-  
lumbus raid.

#### Work to One Purpose.

[By Associated Press.]  
Washington, May 16.—General Scott  
told Secretary of War Baker the net  
result of the border conference was  
convincing that Carranza and the  
United States had no other purpose  
in the preparations in Northern Mex-  
ico than the stamping out of brigand-  
age. There exists an unwritten un-  
derstanding that the Carranzistas  
must demonstrate their ability to  
handle the situation before there is  
any withdrawal. General Scott be-  
lieves that Obregon is acting in good

faith and that the situation is less  
critical than that of the United States  
point of view.

#### Distributing the Troops.

[By Associated Press.]  
San Antonio, Texas, May 16.—The  
distribution of troops under General  
Funston's plan to reorganize the bor-  
der patrol, began today. The details  
were not announced beyond General  
Funston's statement that strong de-  
tachments will be stationed at bridges  
and towns along the Southern Pacific  
to safeguard the line because of its  
strategic value. Troops will be placed  
so as to give the utmost protection to  
the American border community.

#### Bandits Wrecked Train.

[By Associated Press.]  
El Paso, Texas, May 16.—Bandits  
believed to be Mexicans from across  
the border, this morning removed the  
spikes from three rails on the South-  
ern Pacific, resulting in derailment  
of the east bound Sunset express near  
Fort Hancock, east of here. Six were  
hurt and three of them seriously.  
Texas Rangers have gone to the scene.

### BATTLESHIPS LEAVE KIEL FOR RIGA

Petrograd Believes Powerful German Offensive  
On Riga And Dvinsk Front Is Imminent.  
News From Battleships Anxiously Awaited  
Armenian Suffering Is Great, Are Forced To  
Eat Grass.

London, May 16.—The Germans are  
energetically continuing their inces-  
sant bombardment of the French posi-  
tions at Avocourt Wood and on Hill  
304. Heavy shelling of the French  
lines in the Eix and Moulainville sec-  
tors of the Woivre is reported.

News is awaited of the further  
movement of the German battleship  
fleet, which was reported last night  
leaving Kiel for Riga.

Petrograd reports indicated the ex-  
pectation that a powerful offensive  
by the Germans against the Riga and  
Dvinsk fronts was imminent.

Berlin says the French suffered

sanguinary losses in the several at-  
tacks on Hill 304.

#### Armenians Eat Grass.

[By Associated Press.]  
New York, May 16.—The suffering  
among Armenians in Turkey, Persia  
and Syria is still intense and hun-  
dreds are dying for lack of food, says  
a Constantinople cablegram, which  
says \$52,800 a month is needed for  
their relief in Turkey alone. The  
message says many Armenians are  
forced to eat grass.

tacks.

unification of the Methodist Episcopal  
Church and Methodist Episcopal

by the Northern conference in 1920.

### BRYAN MERCHANT IN BANKRUPTCY

Considerable speculation was caused  
yesterday morning when the doors of  
the dry goods store of J. L. Mendlovitz  
on Main Street were not opened  
for business. It was known, from a  
personal item in The Eagle, that he  
and his wife were in Houston on a  
visit but not until this morning did  
anybody in Bryan know what had  
been done regarding the business un-  
til the Houston Chronicle was read  
and the following item appeared:

"Judah L. Mendlovitz, a merchant  
of Bryan, filed a voluntary bank-  
ruptcy petition in the United States  
Court Monday afternoon. Schedules  
show his assets to aggregate \$13-  
790.15, while liabilities are \$7251.85.  
Of the assets \$2000 is claimed exempt.  
Of the liabilities \$3680 is secured."

Mr. Mendlovitz has been in the dry  
goods business in Bryan for several  
years and this action is a great sur-  
prise to his friends here.

### FLOUR MILL PLANT NEARS COMPLETION

The H. T. Lawler Milling and Trading  
Company Promises to Be in Op-  
eration by July 1.

A reporter for The Eagle took the  
opportunity Monday afternoon to pay  
a visit to the milling plant being con-  
structed by Mr. H. T. Lawler and  
sons, which is located just south of  
the Bryan power plant. A large force  
of workmen were very busily engaged  
installing machinery and getting the  
plant in readiness to begin operations,  
which, according to the management,  
will be about July 1. Only the high-  
est grade of machinery is to go into  
the plant and this will insure the  
very best of mill products. It is the  
purpose of the mill to make flour,  
meal and stock feeds. The capacity  
of the mill for flour, as it is being con-  
structed, will be 60 barrels daily, but  
the building was built large enough  
to hold machinery to produce 150 bar-  
rels per day. One very fine feature  
in the mill is a cleaning machine for  
the wheat from which the flour is  
made. This machine will clean and  
reclean three times, enough wheat  
from which to mill 300 barrels of  
flour. The object of same is to run  
this department at such hours of the  
day when the electric power in the  
city is used less, thereby cutting the  
expense and enabling the mill to meet  
competition of other mills. Mr. Law-  
ler stated that if the mill was en-  
abled to get the transit rate, which  
has already been assured them, that  
he will install additional rollers for  
flour immediately after he gets in op-  
eration.

Mr. J. I. Rhodes, who is to be the  
miller, stated that unless something  
unforeseen happens the mill will be in  
operation by the first of July.

The storage capacity for wheat will  
be 30,000 bushels and the elevators  
and carriers are so arranged that  
when the wheat is unloaded it is  
cleaned for the first time and stored  
until ready for use, then when it is  
ready for the rollers it is cleaned  
twice and then washed. This will in-  
sure the very best results.

Mr. Lawler states that he expects  
to buy his wheat from the wheat coun-  
try and from the communities where

the very best of wheat is raised for  
that particular season, and that Can-  
ada will be the limit of his territory  
if he has to go there to get what he
